THE HUMAN CAPITAL AND ITS SIGNIFICANCE FOR OUR PRESENT

2019, Публикация,  Отворен достъп

Автори: Koleva-Stefanova, Desislava

 [human capital](#) | [lifelong learning](#) | [economic growth](#) | [active politics](#) | [labour market](#) | [investment](#)

The article describes basic economic theories examined through the prism of human capital and its development over the years. The significant role of the human factor for the modern world has been underlined. The educational level of labour markets is analysed through the used data from Eurostat. Major negative trends have been identified, related to the development of human capital in the educational, social and economic sectors. Measures and recommendations have been outlined to improve the knowledge and skills of the active labour force and its positive integration into the labour markets.

[FAQ](#)

Who can register?

Any Bulgarian researcher as well as researchers from other countries, that are affiliated with a Bulgarian university and/or scientific organization that performs publicly funded research activities.

Why register?

Every researcher that has a valid account can **upload** scientific publications and outputs in the **national repository**.

How do I register?

1. Contact the appointed **administrator** at your affiliated organization who can create an account for you. If you are currently not affiliated with any organization - contact **NACID** openscience@bpos.bg
2. You will receive an email with a **confirmation link** in order to activate the account.
3. All you need to do is **log in** and follow the **instructions** the system provides on how to publish your scientific outputs.

In conclusion

BPOS is constantly **improving**, **expanding** and **striving** to transform the way research is conducted. Its mission is to **engage stakeholders** as much as possible in the process.

This is why BPOS is always looking forward to collaboration with **universities**, **research organizations**, **funders**, **publishers** and **researchers** that wish to be part of the transition towards open science.
